

Governance Council Minutes - Nov. 29, 2000

The Governance Council met with the Director and finalized the organizational chart with some changes. **Please send your comments on the changes before December 12.** Again, we did not discuss specific pay or duties. After the organizational chart is adopted, the various supervisors and administrative personnel will work with people on their JEFs to bring duties current.

We discussed and approved the FY 03 Initiative proposals to be submitted to the Provost. In these three proposals we are asking for computer replacements worth \$153,000 over three years; hiring four new full time faculty for the education program; and hiring two new full time faculty for the IT discipline. Hopefully some of these proposals will be funded. The Director is pushing hard to hire more new faculty.

We also briefly discussed the Workforce Grant positions and including the faculty in the hiring process.

Will Miles Ph.D.
