

The Governance Council met on December 12 .

We recommended the renegotiated organizational chart to the Director for approval. (See link)

We discussed at length and negotiated the Director's recommended changes to the Area Coordinators description and finalized the language. The major change was necessitated by the priority of assessment. Only full time faculty can assess adjunct faculty. The area coordinators will be appointed yearly by the Director with "consultation and recommendation of the full time and adjunct faculty of that area." (see link)

We started the task of designing a process for allocating, supervising, and evaluating faculty's student workers for next semester.

Will Miles
Governance Council Chair
